# FIELD ENGINEERING AND CONSTRUCTION PROGRESS REPORT

ISSUED THE FIRST & THIRD WEEK OF THE MONTH

November 1, 1982

MONTANA DEPARTMENT OF HIGHWAYS

CONSTRUCTION BUREAU

MISSOULA, MONTANA

OCTOBER 29, 1982

Montana Department of Highways
Helena, Montana

Progress Report
Missoula Area

Gentlemen:

The following report covers preconstruction and construction in the Missoula District for the period ending October 29, 1982.

## G E N E R A L

The weather conditions have been good during this period. There have been periods of light rain and some fog in the early mornings. There has also been a considerable amount of sunshine. Temperatures have ranged from $30^{o}$ to $65^{o}$. Highways are in good driving condition.

## P R E C O N S T R U C T I O N

FR 6-1(8)29, Thompson Falls NW Overlay
Length - 16.8 Miles

Robert Lajoie, District Design Supvr.
Missoula, MT

No work was done on this project during this past period. The design remains 88% complete. Personnel were working on other projects.

F 7-1(9)22, Darby - North & South
Length - 17 Miles
Survey Authorized - September 27, 1977

Allan Dutton, FPM
Hamilton, MT

A four man survey crew has been making section ties and doing topog on the new bridge location over the Bitterroot River at Station 176+. Two people have been doing office work. The location is 18% complete.

RS 263-1(4), Mullan Road
Length - 4.9 Miles

Robert Lajoie, District Design Supvr.
Missoula, MT

No work was done on subject project during this past period. The design remains 33% complete. Personnel were working on other assignments.

STATE OF MONTANA

DEPARTMENT OF HIGHWAYS

Billings, Montana

October 29, 1982

Following is the Preconstruction and Construction Progress Report in Division 5130 for the period ending October 29, 1982.

## GENERAL

Temperatures for the period ending October 29, 1982 ranged from 29 to 74 degrees with minor amounts of precipitation receiving during the reporting period. Fair to good progress was reported on the construction and preconstruction projects during the reporting period.

## PRECONSTRUCTION

IR 90-8(83)388 Reedpoint - East — Unassigned
Overlay
Length: 7.8 Miles
Survey Authorized: 2-7-82
Survey Began:

Work on the survey will begin when personnel are available.

I 90-9(14)542 Wyoming Line North — Raymond J. Schaak, Fld. Prj. Mgr.
Aberdeen Access Road — Hardin, Montana
Big Horn County — Phone No. 665-3666
Preliminary Survey

A seven person survey crew worked one eight hour shift and a draftsman worked four eight hour shifts on the project during the reporting period. Work in progress consists of cross-sectioning the Padlock Access Road from Station 968+56.9 to 985+20.7, preparing the Hardshell, Form HYD 1 and centerline profile. The field survey data was submitted to the District Office on October 22, 1982 for transmittal to Helena. The survey is 100% complete.

F 4-1(2)26 Bridger-Fromberg — James M. Young, Designer III
Length: 7.448 Miles — Billings, Montana
Design Started: 7-1-78 — Phone No.: 252-4138
Probable Completion Date: 12-17-82

Two men worked on this project during the past reporting period, one man attended the public hearing held in Bridger, Montana October 14, 1982 and one man has been making the proposed line projection changes in the area of the furniture factory. Design work remains at 50% on the reconstruction

F 4-1(2)26 Bridger-Fromberg (Continued)

design, no work is expected on the upgrade design on future design of this project.

1.495 Miles Design Work
Design Started: 6-29-82

James M. Young, Designer III
Billings, Montana
Phone No. 252-4138
Probable Completion Date: 4-29-83

Three men worked on this project during the past reporting period. Design has been submitted to Helena for printing of plan in hand prints. A tentative date of November 9, 1982 has been set for the plan in hand inspection. Design work is 50% complete.

BRS 313-1(3)24
Bridge Replacement South of St. Xavier, Preliminary Survey
Survey Authorized: 6-29-82
Survey Began: 7-23-82

Donald R. Taylor, Fld. Prj. Mgr.
Billings, Montana
Phone No. 252-4138

The field survey notes and form HYD-1 were submitted to the District Office on 10-5-82 for transmittal to Helena. This project is now 100% complete.

## PRECONSTRUCTION

CT 314-1(6)33 Busby-Kirby
Length: 12.4 Miles
Letting Date: 2-24-83

Raymond J. Schaak, Fld. Prj. Mgr.
Hardin, Montana
Phone: 665-3666

The project is tentatively scheduled to be let to contract on 2-24-83. A five person engineering crew worked eight eight hour shifts on the project during the reporting period. Work in progress consists of Slope staking from Station 113+25 to 200+00 and running right of way line right of Station 120+00 to 230+00. One man worked three eight hour shifts in the field office checking notes. Preliminary staking work is approximately 24% complete.

Structure Inventory and Inspection
Interstate, Primary, Secondary, Urban and Local Routes

Donald R. Taylor, Fld. Prj. Mgr.
Phone: 252-4138

Good progress. A two person crew inspected and inventoried bridges in the Billings area. Thirteen on-system bridges and twenty-four off-system bridges remain to be inspected in the Billings area.

F 16-1(13)3 Wicks Lane to Bench Blvd. on U.S. 87 - Billings (Continued)

Progress during this reporting period has been good. The contractor, Empire Sand & Gravel Co., Inc., had an average of 19 persons working 10 days. Work consisted of placing 56 tons of plant mix base at Jerrie and Jaque Lanes. Placed 7,016 tons of plant mix surfacing at stations 91+51 to 138+40 and at the street approaches left and right along the project. Placed sidewalk left side stations 92+00 to 92+84 and the radii at Jerrie & Jaque Lanes. Completed placing the curb-conc. med. type A but it yet remains to be pinned in place. Midland Electric, electrical sub-contractor, has two persons working two days. Work consisted of putting in 60 lineal feet of steel conduit, 120 lineal feet of wire and resetting light standard number 2 at station 94+65 on the right side. Western Sign Corp., signing and striping sub-contractor, has four persons working eight days. Work consisted of placing 1,548 lineal feet of 4" white plastic, 916 lineal feet of 8" whit plastic, 271 lineal feet of 24" white plastic and 130.8 square feet of white plastic, words and symbols. Placed 5 cubic yards of cl. D. concrete for the sign bases throughout the project. Percentages complete of various items are: grading items 99%, removal items 100% complete, miscellaneous items 80%, storm sewer items 100%, culvert items 99%, curb & sidewalk 79%, surfacing items 87%, electrical items 71%, fencing items 46%, signing items 15% and striping items 76%. The project is 79% complete with 71% of the contract time being used. An average of nine persons were assigned to the project for engineering and construction inspection.

Progress for this reporting period has been good. The contractor worked eight eight hour shifts with 32 men employed. Work in progress included cutting and burying trees and brush from station 20+00 to station 481+00. The sod has been stripped and windrowed behind the slope stakes from station 170+00 to station 481+00. All signs and delineators in this section have been removed and stockpiled. The contractor hauled borrow from the Bell Pit for five days and hauled from the Spencer Pit for three days. The embankment in place item is 35% complete. The total project is 13% complete and 15% of the contract time has been used. A three man survey crew worked 10 days cross-sectioning borrow areas, cross-sectioning pipe, and laying out borrow areas. One man is assigned as grading and compaction inspection. Engineering layout is 42% complete.

Fair progress. The contractor worked 17-10 hour shifts employing 14 men during the reporting period. Work in progress consists of crushing and stockpiling 3/4" grade "C" plant mix aggregate. The crushers are working two 10 hour shifts per day. The contractor began moving the hot plant onto the project and plans to begin the shoulder widening and paving during the week of October 25, 1982. The project is approximately 3% complete with 74% of the contract time elapsed. A three person engineering crew is assigned to the project for construction inspection and layout. Construction layout is approximately 19% complete.

Progress this reporting period has been good. Work in progress during this period consisted of drainage, surfacing, fencing, guardrail and signing. The contractor, Barry O'Leary, Inc., worked ten eight to ten hour shifts with an average of thirty men employed, placing concrete at station 97+51, placing PMS Grade C, first lift, from Station 214+90 to Station 429+70, which completes the first lift, and second lift from station 214+90 to station 303+85, erecting fence from station 205+00 to station 416+00. The sub-contractor, One Way Sign, worked nine, eight hour shifts with six men employed erecting guardrail and signs throughout the project.

RS 416-1(3)1 Billings - South (Continued)

The miscellaneous items remain 98% complete; the grading items remain 98% complete; the drainage items are 95% complete; the surfacing items are 71% complete; the fencing items are 99% complete, the signing items are 51% complete; the electrical items are 100% complete; the guardrail items are 77% complete. The project as a whole is 81% complete with 101 of the 116 working days allowed having been used or 87% of the contract time elapsed. A nine man survey and inspection crew worked on the project during this reporting period staking miscellaneous items, running line control for asphalt and inspection for drainage, surfacing, fencing, guardrail and signing work. One man is assigned to the office. Engineering layout is 85% complete.

Sincerely,

C. W. KLIMPER, P.E., DISTRICT

Progress Report
District #41
Division 5230

Following is the Preconstruction and Construction Progress Report for the period ending October 29, 1982, for Division 5230 - Miles City, Montana

## GENERAL

Partly cloudy skies, rain and snow showers prevailed during the period. Temperatures ranged from 17° to 64°. ½" to 1" of precipitation was received throughout the Division. On Montana 39 culvert installation, grading, graveling and plant mix paving operations may be in progress adjacent to the present traveled way 4 to 25 miles north of Colstrip. Construction equipment may be crossing the present traveled way with flag persons being utilized during working hours.

## PRECONSTRUCTION

FR 2-1(3)34 - Locate-East
Length: 11.8 Miles
Design Started: May 11, 1982

A.D. Anderson, Designer III
Miles City, MT - Tel. No. 232-1093
Prob. Comp. Date: December 17, 1982

No design work was performed during the past period. Memorandum dated August 2, 1982, confirmed no final plan-in-hand was necessary. Design remains 50% complete with 27 man days used.

F 23-1(2)7 - Miles City-South
(South Section)
Length: 6.7 Miles
Design Started: May 16, 1979

A.D. Anderson, Designer III
Miles City, MT - Tel. No. 232-1093
Prob. Comp. Date: December 31, 1983

The public hearing was held September 22, 1982. No additional design work will be performed until the results of the public hearing are finalized. Design remains 26% complete with 286 man days used.

Effective Opening Date:

Progress during the past period has been good. Work in progress consisted of installing 22 lineal feet of RCP Culvert making a total of 5,318 lineal feet or 95% complete. 336 lineal feet of optional pipe were installed making a total of 758 lineal feet or 82% complete. 11.7 cubic yards of Class DD Concrete were placed making a total of 69.6 cubic yards or 63% complete. 1,472 tons of 1" base gravel were hauled to the road and placed making a total of 108,507 tons or 98% complete. 22,326 tons of 1½" shoulder gravel were hauled to the road and placed making a total of 36,246 tons or 40% complete. 29,327 tons of Plant Mix Base were hauled to the road and placed making a total of 79,316 tons or 90% complete. To date 3,754 rods of farm fence have been erected or 89% complete. 318 lineal feet of bituminous coated S.S.P.P. Culvert have been installed or 100% complete. The surfacing aggregates have been crushed and stockpiled. Contractor worked 16 nine-hour shifts with 65 people employed. On the structure portion of the project, minor clean-up work was performed on the structures during the past period. The structures are complete with the exception of installing railposts. Sletten Construction Co., subcontractor, worked one two-hour and one four-hour shift during the past period with a average of three men employed. Structures are 97% complete. The project as a whole is 65% complete with 90% of the contract time elapsed. Construction layout, with a twelve-man engineering crew engaged, is 90% complete.

PROGRESS REPORT
DIVISION 5330

Gentlemen:

The following report covers preconstruction and construction in Division 5330 for the period of October 16, 1982 through October 29, 1982.

## GENERAL

The temperature varied from 71° above to 17° above zero with 0.38 inches of precipitation recorded. Roads are in good travel condition.

## PRECONSTRUCTION

F 57-3(03)122, Winnett-West
